Laura 219-762-1044

CUSTOMIZED COURSE GUIDELINES

- Classes are open to active Union Steelworkers
- Classes will be taken on the employee's own time
 - Classes can only be taken once
 - Classes where spouses may attend (with employee) are noted
- If you have to drop, you MUST contact Career Development or you will get charged the class amount against your yearly limit.

***** Customized Class Limits *****

Effective January 1, 2003, The Governing Board for ICD has put a limit on customized classes of \$2,000 per participant per year.

What this means to the participant is in most cases, each participant will be able to take approximately 5 courses per year. On an average, most classes cost \$400 per person and basic computer classes run \$275 and some courses cost more or less than others so each participant's spending will be monitored.

Also, there is a limit of 2 Limited Customized courses per year.

TUITION ASSISTANCE

In addition to customized classes USW members are eligible for Tuition Assistance.

- You may use up to a maximum of \$1,800/calendar year (Jan. to Dec.) for an accredited school.
- Funds may be used for tuition, required textbooks and course-related fees. Funds cannot be used to pay for materials, equipment, or supplies.
- Approved Correspondence Courses may be reimbursed (upon proof of successful completion) for 50% of the tuition costs of up to a maximum of \$900 per calendar year (applied against the \$1,800 limit).
- You must receive a passing grade for all courses taken. Tuition funds cannot be used to pay for courses you fail or drop/withdraw. IF this happens, an appeal form must be filed and you must pay up front for your next classes. You must submit a copy of your grades/certificate of completion to Career Development upon completion of the course, to be eligible for further Tuition Assistance Funds on a case-by-case basis.

To apply for Tuition Assistance Please contact your Career Development Office

Tino Fulimeni Scholarship Fund

ANNOUNCEMENT from the Institute for Career Development (ICD)

In 2016, ICD will award seven **\$1000** scholarships to various children and grandchildren of steelworkers.

The *Tino Fulimeni Scholarship Fund* was established to honor the memory of Brother Fulimeni. Tino was a fanatic about ICD. His commitment and contribution are evident in the success of the Career Development Program.

The *Fund* is administered by ICD in Merrillville, IN.

The following criteria must be met to be eligible for the scholarship drawing:

Applicant must be a high school graduate enrolled in college and beginning in the fall semester of 2016 or the spring semester of 2017 or a college student returning to school in the fall semester of 2016 or spring semester of 2017.

Applicant must have maintained, in the past, at least a cumulative 3.0 grade point average and can demonstrate this with a transcript if selected.

Applicant must be the child/grandchild of a steelworker who is currently eligible to participate in the Career Development Program.

Drawing will take place November 10, 2016. ICD will accept applications in their office until the application deadline of **August 31, 2016**. Please send applications to:

Tino Fulimeni Scholarship Fund
c/o The Institute for Career Development, Inc.
1000 East 80th Place, Suite 301 South
Merrillville, IN 46410

Applications can be obtained from your local program
or by calling ICD at (219) 738-9029.

Computer Classes

HELD at McBride Hall (1014 Union Hall)

1301 Texas Street, Gary ~ 888-5981

Spouses can attend with employee at no charge

Upgrade to Windows 10

Dates: August 10 – August 24, Wednesdays for 3 weeks

Times: 11:30 am - 2:00 pm or 3:30 pm to 6:00 pm

Instructor: George Zahariadis

All new Windows PCs, laptops, tablets, and phones, now come with Windows 10. You may be able to upgrade your existing Windows system for free, if you currently have a Windows 7 or 8 system. If you skipped the Windows 8 upgrade, have a Windows 8 system, or thinking of purchasing a computer system or tablet in 2016, you should attend this class and educate yourself on Windows 10. This class will show you how to use the Windows 10 interface and new features, and what you will need to upgrade your system.

Home and Business Security Camera Surveillance Systems

Dates: August 4 – August 25, Thursdays for 4 weeks

Times: 11:30 am-2:00 pm OR 3:30 pm-6:00 pm

Instructor: George Zahariadis

In this class we will guide students toward the best possible and most economical type of Camera Security Systems and Digital Video Recorders, based on their requirements and budgets. If you have an older PC, why not convert it to a surveillance system? We will show where to purchase and how to install different systems and use the internet to monitor and see what is happening in your home or business. Many small businesses in your area are in need of Surveillance systems. This class can provide a great part or full time income. **Now covers the latest completely battery powered wireless security camera systems including the very popular Ring system.**

Ubuntu Linux Operating System

Dates: September 1 – September 22, Thursdays for 4 weeks

Times: 11:30 am-2:00 pm OR 3:30 pm-6:00 pm

Instructor: George Zahariadis

In this class you will learn how to install Ubuntu Linux, navigate and use the Ubuntu operating system, install programs and devices and learn useful terminal commands. By the conclusion of this course, you will have the necessary knowledge and skills needed to navigate your way through this operating system and be able to take full advantage of the powerful features available in Ubuntu Linux. This is a great class for someone wanting to use an older desktop or laptop and take full advantage of the free Ubuntu operating system and programs available.

Computer Classes

HELD at McBride Hall (1014 Union Hall)

1301 Texas Street, Gary ~ 888-5981

Spouses can attend with employee at no charge

Cell Phone Repair Technician (TAP Class)

Dates: August 31- November 2, Wednesdays for 10 weeks

Times: 11:00 am-2:00 pm OR 3:30 pm-6:30 pm

Instructor: George Zahariadis

The explosive growth in cellular subscribers equal a greater need for well trained Technicians to meet the growing demand. Classes are hands-on so you gain immediate confidence in doing repairs in the following topics: How to replace broken Glass Digitizer, replace broken LCD, Step-by-step instructions on how to disassemble the iPhone and Samsung Galaxy, correct use of proper tools, and opening techniques to dismantle all makes and models of cell phones. Data transfer & recovery, Cell Phone Unlocking, Water Damage, Physical Damage, Phone Troubleshooting and Repair, Advanced soldering techniques on replacing components on iPhone, Samsung, HTC, LG, Blackberry, Motorola and much more are covered in this class. Great extra or new income stream from cell phone repairs available for trained technicians. Take this class to tap into a multi-billion dollar market. Students can bring their own phones to class for repairs.

Updated: PC Upgrade and Re-

pair and Troubleshooting

Dates: October 18 – November 8, Tuesdays for 4 weeks

Times: 11:30 am-2:00 pm OR 3:30 pm-6:00 pm

Instructor: George Zahariadis

This course will show you many ways to save money on upgrading and repairs of your PC. It is designed to familiarize the personal computer owner with his/her machine. Before you spend another penny on upgrading or repairing your computer you should take this course. You will learn hands-on by solving hardware problems in class with instructor guidance. If you want to upgrade your current system you can bring it in to class and work on it. **Now covers Windows 10 Upgrade, installation, and troubleshooting.**

Computer Classes

**HELD at McBride Hall (1014 Union Hall)

Spouses can attend with employee at no charge

Get MagicJack Plus or Other Phone Services & Replace Your Land Line

Dates: November 9, Wednesday for 1 day

Times: 11:30 am - 2:00 pm or 3:30 pm - 6:00 pm

Instructor: George Zahariadis

Do you want to save hundreds of dollars per year on phone bills? Then replace your current land line with the MagicJack Plus system. If you have internet at home you can use it to make free phone calls in the US. You can now plug the system directly to your router, and also now transfer your current phone number. It even includes Smartphone application. MagicJack Plus has added High Definition Voice, Free Directory Assistance, Call Waiting, Voicemail and Caller ID. Come to class and see the 2011 Product of the Year in action. We will also look at other services like OOMA, Net10, and others and compare services and pricing.

Wireless Alarm Security Systems for Home and Business

Dates: December 1– December 22, Thursdays for 4 weeks

Times: 11:30 am - 2:00 pm OR 3:30 pm - 6:00 pm

Instructor: George Zahariadis

The types of Alarm Security systems can drastically differ in price, features, and quality. In this class we will compare and setup/install different types of wireless home-security systems. This class will help you find the wireless system that best fits your household or business needs. Purchasing your own home or business-security systems, allows you to bypass the monthly fees if you use a non-monitored system or we will show you how to save in monthly fees for a monitored system.

Computer Classes

HELD at Local 1066 Union Hall

1221 E. Ridge Road, Gary ~ 888-5981

Spouses can attend with employee at no charge

Updated: Raspberry Pi 3 Model B Computer With Raspbian and KODI

Dates: August 9 – August 30, Tuesdays for 4 weeks
OR September 29 – October 20, Thursdays for 4 weeks
OR November 7 – November 28, Mondays for 4 weeks

Times: 11:00 am - 2:00 pm OR 3:30 pm – 6:30 pm

Instructor: George Zahariadis

This class now covers the Raspberry Pi 3 Model B, the high end model that sports a 64-bit 1.2GHz quad-core chipset and 1GB of RAM, built in Wi-Fi and Bluetooth. Pi3 is cited to deliver more than a 50% power bump compared to its predecessor. The Raspberry Pi is a low cost, credit-card sized computer that plugs into a computer monitor or TV, and uses a standard keyboard and mouse. It's capable of doing everything you'd expect a desktop computer to do, from browsing the internet and playing high-definition video, to making spreadsheets, word-processing, and playing games. This class also covers the OpenElec OS enabling you to run the popular KODI media streaming software and will teach you how to stream movies, music, TV, and pictures. Attend this class to see the Raspberry Pi 3 uses, every person in this class now will get a Raspberry Pi 3 model B computer to use in class and keep at the completion of class.

Raspberry Pi (Part 2) – Customizing and Enhancing KODI

Dates: September 6 – September 20, Tuesdays for 3 weeks
OR October 27 – November 10, Thursdays for 3 weeks
OR December 5 – December 19, Mondays for 3 weeks

Times: 11:30 am - 2:00 pm or 3:30 pm - 6:00 pm

Instructor: George Zahariadis

Prerequisites: Raspberry Pi 3 or A Computer for \$35 called Raspberry Pi class
or existing KODI knowledge

This class is a continuation of the Raspberry Pi 3 class and will show you how to customize your KODI system to your preferences, how to get the latest updates, and work with builds, wizards, and TV guides. Steps to enhance the performance of your KODI system will also be discussed and practiced.

Updated:

Free and Low Cost Alternatives for Watching TV and Movies Including HD HomeRun Box Setup

Dates: September 27- October 11, Tuesdays for 3 weeks

OR December 6 - December 20, Tuesdays for 3 weeks

Times: 11:30 am-2:00 pm OR 3:30 pm-6:00 pm

Instructor: George Zahariadis

Why pay for cable TV or Satellite anymore? Hundreds of thousands of movies and millions of hours of television—not to mention the daily news, live sports, comedy stand-up specials, network and television shows—all this content and much more is available via the Internet. Throw in media streamers like, Apple TV and Roku, and there's just no question that the online alternatives to cable are more exciting than cable ever has been. We will even explore over the air antennas and amaze you at how much free TV is available. This class now covers HDHomeRun Set top boxes to stream your over the air antenna contents to multiple televisions in your home.

3D Printing 101

Dates: October 7 – November 11, Fridays for 6 weeks

Times: 11:30 am-2:00 pm OR 3:30 pm-6:00 pm

Instructor: George Zahariadis

This class will take you through the essentials of 3D printing. We will explore 3D printer hardware and the print process and then examine the software that enables you to create, modify, and print 3D models. You will also get some insights into 3D scanning technologies and what is coming up in the world of 3D printing. We will use free software and free apps that let you create 3D objects and also 3D scans of virtually any object and turn ordinary photos into extraordinary 3D models. Capture places, people and things in 3D using your iPad, iPhone, Android device, or any camera and 3D print a real object!

New Class KODI Updates Workshop

Dates: August 3, Wednesday for 1 day OR November 29, Tuesday for 1 day

Times: 12:00 pm to 2:00 pm or 3:30 pm to 5:30 pm

Instructor: George Zahariadis

Prerequisites: Raspberry Pi classes Or existing KODI knowledge

If you are currently using KODI you should attend this workshop to show you what is new in the world of Repos, Builds and Wizards in addition to updates in KODI versions. Updates to this system occur often, you need to be aware of changes to help your KODI experience be even more beneficial and useful.

Virus Protection Workshop

Dates: September 20, Tuesday, for 1 day

Times: 7:30 am-10:30 am OR 7:00 pm-10:00 pm

Instructor: George Zahariadis

With hundreds of new computer viruses every month, keeping anti-virus software up-to-date has never been so important. Despite this, the average computer user is usually unaware their workstation has been infected until they start to suffer the consequences of an attack from a virus, worm or Trojan horse. This workshop gives attendees an opportunity to gain hands-on experience of viruses. It also presents practical methods to reduce and contain virus infections. This class will also show you how to get a free virus checker for your home pc.

Computer Security, Adware, and Spyware Workshop

Dates: September 27, Tuesday, for 1 day

Times: 7:30 am-10:30 am OR 7:00 pm-10:00 pm

Instructor: George Zahariadis

Spyware, adware and other code that lurks on hard drives has become so pervasive it's bedeviling home users, driving corporate technology managers to distraction and has become the top complaint in customer service calls to computer makers. This workshop will help you learn how to detect and clean these types of parasites using free software you can download over the internet.

Do you have a will? Have you been putting it off because you don't want to hire an attorney and you really don't want to think about it? Well, now is the time because it is so easy. Come to this class and learn the different packages available to use and begin creating yours today! Don't let the court decide the outcome of your estate! Don't delay the distribution of your assets to your loved ones! Take just a few minutes to write your Last Will and Testament today. **CEI is not offering any legal advice in this class, we are showing you how to use pre-designed software to create a will.**

Investment / Stock Classes

McBride Hall, Local 1014, 1301 Texas Street — Gary

The Art of Investing

This series of financial investment courses will be taught by Instructor Ed Guldenzopf, a former stockbroker and securities principal, who worked at World Trade Center.

Investment Class Times:

Lecture: 8:00 a.m. - 11:00 a.m. OR

Lecture: 4:00 p.m. - 7:00 p.m.

Stocks and Bonds: Law of Corporate Finance

Dates: August 26 to October 28, Fridays for 10 weeks

This course will cover the basics of stocks, bonds, the trade-off between risks and returns, and security markets from a legal point-of-view. This is an elective course offered by the American Paralegal Institute.

Stocks And Bonds: Securities Regulation

Dates: November 4 to January 27, 2017, Fridays for 10 weeks *****No class November 25, December 23 and 30

This course will consider the stock and bonds markets from a regulatory point-of-view. As such, the basic governing policies in securities law will be covered and their impact of the stock and bond markets. This is an elective course offered by the American Paralegal Institute.

NO INVESTMENT ADVICE WILL BE GIVEN BY THE INSTRUCTOR. THE COURSE IS SOLELY EDUCATIONAL IN NATURE.

Paralegal Studies at Gary Works

Local Union 1066 — 1221 E. Ridge Road, Gary

The Paralegal Certificate program prepares you to work directly under the supervision of an attorney or to perform general background work in the legal environment. Upon successful completion of the ten required courses, you will earn a Paralegal Certificate from the American Paralegal Institute.

Classes are taught by Attorney Ed Guldenzopf.

Introduction to Paralegal Studies

Dates: August 24 to October 26, Wednesdays for 10 weeks

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

This course presents an overview of the paralegal profession. Topics covered included the legal environment, the legal process and the basic terminology used in the legal process.

Legal Writing

Dates: August 25 to October 27, Thursdays for 10 weeks

Times: 8:00 am - 11:00 am OR 4 pm - 7:00 pm

Inasmuch as the legal practice is concerned with the communication of ideas, the participant will write a brief, which is the written presentation of a factual dispute supported by legal theory. The focus of this course is primarily concerned with the writing of the brief. Separate research exercises unrelated to the brief will be assigned.

Legal Research

Dates: November 2 to January 25, 2017 Wednesdays for 10 weeks *****No class November 23, December 21 and 28

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

This course will focus primarily on researching the law on a particular legal issue. Research may be done on the computer, utilizing a law retrieval service such as West Law or Lexis-Nexis. A brief will be written based on the research the participant has done. A minimal degree of computer literacy may be needed.

Torts

Dates: November 3 to January 26, 2017, Thursdays for 10 weeks *****No class November 24, December 22 and 29

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

This course considers primarily a substantive approach to tort law. Various intentional torts, negligence law and strict liability will be explored. Specific torts may include assault, battery, false imprisonment, misrepresentation and wrongful death.

Gary Works Career Development Center

Local Union 1066 — 1221 E. Ridge Road, Gary

Wreaths for the Holidays

Dates: October 3, November 7, and December 5 - 3 Mondays

Times: 8:00 am - 12:00 pm OR 1:00 pm - 6:00 pm

Instructor: Kim Riley

Decorate for the seasons with a beautiful wreath. They are so welcoming on your front door. We will be making a wreath for Halloween in October. November will be a fall-themed wreath and of course, a Christmas wreath in December.

Build Your Own Tile Framed Mirror

Dates: September 20 to October 11, Tuesdays for 4 weeks

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Jim Balina

In this class, you will make a beautifully framed mirror of wood and tile. You will work from pre-cut kits, notes and demonstration to construct and assemble a hardwood frame. After cutting the tile, you will work from notes and interactive demos as you progress from assembly of previously sanded and cut wood kits to the wonderful finished product. Top it off with some new stain and protective finish, take it home and show it off! Join the fun for another unique class in woodworking and tile skills. All tools, tile and materials provided.

Dates: October 5 to October 12, Wednesdays for 2 weeks

Times: 8:00 am - 12:00 pm OR 4:00 pm - 8:00 pm

Instructor: Christine Rath

We live in a country that provides many options and opportunities to thrive financially, however, most people are unaware of the resources available to them. This class will teach you how to gain multiple streams of income free and effortlessly. It will also show you how to get multitudes of products and services for free or for a fraction of the retail price regardless of your income level. Topics included are: How to get free vacations and airfare, free books, free college, free legal advice and forms, free telephone services, free healthcare services, free household goods, free jewelry, etc. Also learn where to get incredibly low cost ticket items such as houses, cars, boats, and so much more.

Gary Works Career Development Center

Local Union 1066 - 1221 E. Ridge Road, Gary

Basic/Advanced Locksmithing

Date: November 1 to November 22, Tuesdays for 4 weeks

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructors: Joyce Russell and Gregg Stoffle

This course will introduce the student to a variety of common locking devices and the basics of how locks work. We will also discuss some standard locksmithing tasks and the tools used to perform them. Topics covered: Locksmith terminology, Keyblank identification, Kwikset & Schlage style knobs, Deadbolts, Master keying and Padlocks.

*****New Class All About Smokers**

Dates: July 12 and 13, AND July 19th and 20, Tuesdays and Wednesdays for 2 weeks

Times: 8:00 am – 11:00 am OR 4:00 pm – 7:00 pm

Instructor: Jeff Berghoff

This is your opportunity to learn to be a backyard Pit Master! In this 12 hour class, you will learn about marinades, rubs, sauces and mops. You will make and take home your own Memphis Dust Rub that brings out the flavors of many meats. In class you will learn about proper smoking times and temperatures, the many woods used in smoking and the foods that they best pair with for maximum flavor. We will smoke seafood, chicken, beef and vegetables and you'll get to taste our results. Also each week we smoke using a different wood so the students get a great feel for that particular wood. The use of our rub is very tasty. We smoke cheeses, spices, and prepare smoked pig on the beach using shrimp and sausage, smoked chicken cherry bombs, beef and pork meatloaf muffins, bacon wrapped stuffed sausage fatty, smoked tilapia, and smoked salmon. Be the best backyard cook in your neighborhood! Amaze your family and friends with the mouth watering meals you can prepare using your smoker. This is your chance to be your own Pit Master!

Appliance Troubleshooting

Dates: September 6 to November 8, Tuesdays for 10 weeks

Times: 8:30 am - 11:30 am OR 4:00 pm - 7:00 pm

Instructor: Roland Alvarez

This class will teach you the tear down of a unit and will provide the student with updated knowledge of how to troubleshoot, diagnose and repair appliances which include washers, dryers, ranges and refrigerators. Will also discuss Energy Star Appliances that are out on the market today.

Gary Works Career Development Center

Local Union 1066 — 1221 E. Ridge Road, Gary

Build Your Own Cooler Cart

Dates: August 3 to August 31, Wednesdays for 5 weeks

Times: 8:00 am – 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Jim Balina

Build a beautiful, yet functional ice chest cart for your deck, patio or backyard. We will supply the pattern, materials and of course the tools needed to complete the cart in this 5 week course. Earn some extra income and make this for your family and friends. Start your summer off right with this great cooler!

Build Your Own Wine Rack

Dates: September 21 to October 12, Wednesdays for 4 weeks

Times: 8:00 am – 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Jim Balina

Storing wine can be a tricky business. You want to make your bottles accessible but also protect them. It's time to get those bottles of wine out of their dusty boxes and display them in your one of a kind wine rack. The wine rack you will be building in class will hold 24 bottles of vino!

Fitness for Life

Dates: October 10 to November 14, Mondays for 6 weeks

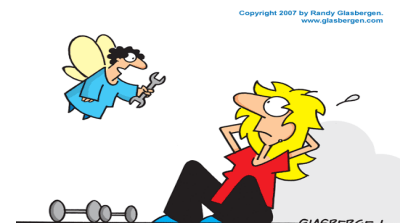

Times: 8:00 am - 9:00 am OR 4:00 pm - 5:00 pm

Instructor: Denny Finnearty

The Fitness and Nutritional training program, Fitness for Life, provided by Universal Fitness and Training, is designed to provide participants with the knowledge to differentiate between healthy and unhealthy lifestyle patterns. Participants will learn to classify food sources and food groups, and to interpret product labels as well as nutritional content and value. Discussions will cover how healthy eating habits maintain a healthy weight, lower risk of disease, keep all body systems functioning properly, and create energy and well-being. We will also explain how beneficial daily physical activity is and its contributions to overall wellness.

"What fits your busy schedule better, exercising one hour a day or being dead 24 hours a day?"

"I'm the Workout Fairy. I'm here to tighten your abs!"

Gary Works Career Development Center Local Union 1066 — 1221 E. Ridge Road, Gary

Nonprofits: How to Form One

Dates: October 5, Wednesday for 1 day

Times: 8:00 am - 11:00 am OR 3:30 pm - 6:30 pm

Instructor: Robert Smith

Everyone faces the same rules when starting a not-for-profit organization. So why do some people get their applications approved in a few weeks while others get bogged down for more than a year? This class answers that question by showing both the guidelines to follow and the pitfalls to avoid. Many steelworkers have already started 501(c) (3)s, and you can, too. This one-day seminar gets you started, and continued access to the instructor afterward allows a smooth follow through. Success brings benefits to your community, tax freedom, and increased eligibility for grant awards.

Fundraising: 100 Events

Dates: September 14, Wednesday for 1 day

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Robert Smith

Need to make some money for your group without making a mess? This practical course will be short on theory and long on time-tested advice on how to plan and implement fundraising events. A new book on hundreds of events/approaches that will help causes – whether yours is a church, school, team, nonprofit group, etc. – will be explored. The instructor will share stories about how to avoid hair-raising fundraising and make some money for your favorite but unfunded group.

Gary Works Career Development Center

Local Union 1066 — 1221 E. Ridge Road, Gary

*****New Class Red Cross First Aid and CPR/AED Training**

Dates: TBA for 2 days

Times: 8:00 am - 11:00 am OR 3:30 pm - 6:30 pm

Instructor: TBA

First Aid and CPR/AED trains you to respond to breathing and cardiac emergencies, injuries and sudden illness. You will learn to identify and respond to common sudden illnesses such as fainting, seizures, strokes, allergic reactions, poisoning and diabetic emergencies.

Garden Mosaic

Dates: July 13 to August 31, Wednesdays for 8 weeks

Times: 8:00 am - 12:00 pm OR 2:00 pm - 7:00 pm

Instructor: Beth Harrigan

In this class, students have the option to mosaic a stepping stone, a small birdbath, a concrete turtle, a small patio table and/or a wall decoration for example: a cross or a picture frame.

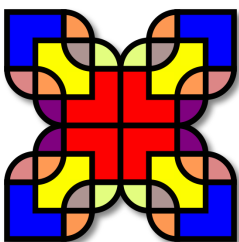

Stained Glass for the Holidays

Dates: October 19 to December 7, Wednesdays for 8 weeks

Times: 8:00 am - 12:00 pm OR 2:00 pm - 7:00 pm

Instructor: Beth Harrigan

In this class, the student will learn to create a project such as a jewelry box, stained glass window or wall hanging, or Christmas decoration or ornament.

Gary Works Career Development Center

Local Union 1066 — 1221 E. Ridge Road, Gary

Photography I

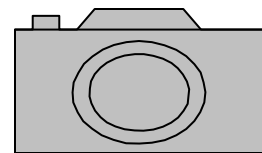

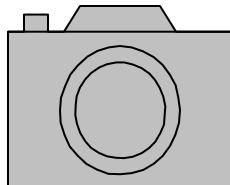

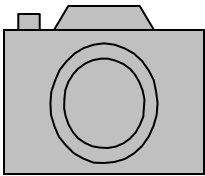

Dates: September 16 to October 14, Fridays for 5 weeks

Times: 9:00 am - 12:00 pm OR 3:30 pm - 6:30 pm

Instructor: William Staniec

Photo I is a comprehensive class about the fundamentals of photography. While digital imaging is relatively new to photography, "digital" refers only to the way the image is captured and stored. Digital chips replace film. Most of the other techniques in photography are more than 150 years old. In Photo I, you will learn about correct exposure, what makes the "right exposure" and why. You'll discover the meaning of shutter speeds and f-stops and how to stop motion or let a "subject's motion" blur in just the right way. You will also learn about depth of field: how much of the picture you should have in focus and how to use "out of focus" in just the right way. In Photo I, you will also learn about composition for photography and ways to approach the "critique" of photographs - your own and the work of others. Each week, you'll get a "shooting" assignment. Photo I lays the proper foundation for the more technical Photo II and Photo III classes.

As always – Laughter Will Be Heard & Learning Will Occur.

Basic Plumbing

Dates: October 21 to December 16, Fridays for 8 weeks *****No class November 25

Times: 8:00 am -11:00 am OR 3:30 pm - 6:30 pm

Instructor: Bill Cameon

This course will help participants learn plumbing skills such as sweat soldering of copper tubing and fitting PVC that will aid them in doing home repairs or remodeling techniques. The class will also cover faucet repairs, toilet tank repairs and plumbing maintenance chores that should be performed on a regular basis in the home.

Gary Works Career Development Center Local Union 1066 — 1221 E. Ridge Road, Gary

Home Maintenance and Remodeling

Dates: November 15 to December 20, Tuesdays for 6 weeks

Times: 8:00 am -11:00 am OR 3:30 pm - 6:30 pm

Instructor: Bill Cameon

This class will give participants insights on electrical, plumbing and carpentry projects and issues. It will also address costs of projects and building, electrical and plumbing code issues.

***New Class Failed to Save for Retirement , Now What?

Dates: November 9, Wednesday for 1 day

Times: 8:00 am -11:00 am OR 4:00 pm - 7:00 pm

Instructor: Mike Miller

The burden for saving and investing for retirement has shifted from companies to individuals. As a result, it is critical that you properly plan and save for your own retirement. However, completing goals and expenses, such as funding college for children, often do not allow you to start saving as early or as much as you would like. When this occurs, you may need to make up for any shortfall in the remaining time you have before retirement. This seminar will provide an overview of options available if you find that you are behind in saving to meet your retirement goals.

Gary Works Career Development Center Local Union 1066 — 1221 E. Ridge Road, Gary

1919 Willowcreek Rd., Portage ~ Local 6103 Union Hall

Adirondack Accessories

Dates: August 4 to September 1, Thursdays for 5 weeks

Times: 8:00 am – 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Jim Balina

In this class the student will be able to pick from a variety of projects to compliment their projects that they have made from previous classes. Some of the choices are; side table, foot rest, children's furniture, or the student may come into class with their own idea. We will build the project completely in class. We will be using cedar so that your furniture will last a lifetime! Great gifts!

Make Your Own Jewelry or Keepsake Box

Dates: September 22 to October 13, Thursdays for 4 weeks

Times: 8:00 am – 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Jim Balina

We start in this class with the student picking a pattern and deciding what type of box they would like to make. Their box will be customized by the student choosing how they would like to finish their project. All materials will be supplied in class. Their project will be completed by the end of this 4 week class. Just in time for a great Sweetest Day Gift!

Drywall Installation

Dates: October 20 to November 10, Thursdays for 4 weeks

Times: 8:00 am - 11:00 am OR 3:30 pm - 6:30 pm

Instructor: Bill Cameon

This is a hands on class that will help participants to understand installation of interior drywall techniques. It will cover hanging drywall, type of glues and screws needed and the amount that will increase the success of proper installation. It will also give insight on cutting in receptacles and switches and using drywall compound for covering of seams and cracks. Each participant will receive a drywall text book and writing material.

Midwest Career Development Center

1919 Willowcreek Rd., Portage ~ Local 6103 Union Hall

Become a Super Sleuth

Dates: October 13, Thursday for 1 day

Times: 8:00 am – 12:00 pm OR 4:00 pm – 8:00 pm

Instructor: Christine Rath

Learn all of the techniques to legally investigate any person or business online or off. Learn where the pros get their facts and obtain information. Learn how to spot deception and manage physical and electronic surveillance. Learn how to find hidden assets, or catch a cheating spouse. This class is a must if you have a desire to become a professional P.I., or you just want to learn how to obtain background information and discover sources that work.

Healing Power Of Herbs

Date: October 4, Tuesday for 1 day

Times: 8:00 am - 12:00 pm OR 4:00 pm - 8:00 pm

Instructor: Christine Rath

Are you looking for a natural approach to great health? Are you tired of not feeling good or lacking energy? Learn how to use the power of herbs to promote health and healing from within. Herbs and spices are derivatives of plant compounds, which naturally fight oxidation and inflammation, a primary culprit leading to many chronic diseases. Herbs and spices not only make our food taste great, but have been used since ancient times, and are linked to prevention and treatment of a multitude of health ailments such as heart disease, cancer, diabetes, and Alzheimer's.

Residential Wiring II

Dates: October 17 to December 12, Mondays for 8 weeks.*****No class November 14

Times: 8:00 am - 11:00 am OR 3:30 pm - 6:30 pm

Instructor: Bill Cameon

This course is a follow-up to Residential Wiring. Although there is not a prerequisite for this class, It will be more of the same type wiring procedures and tasks that are encountered daily for the person wanting to learn fundamentals of electrical wiring. This class will also help a person to prepare to join the electrical trade. Each week a different topic will be discussed, such as conduit bending, electrical connection for different type of electrical components, doorbell wiring, thermostat wiring, simple repairs to A/C units and furnaces and many safety tips to use to be safe around electricity. Each participant will receive reading material that is necessary for the calculation of formula's and understanding of minimum sizing of material for safe installations.

1919 Willowcreek Rd., Portage ~ Local 6103 Union Hall

Lawn Equipment Maintenance And Repair

Dates: July 15 to September 30, Fridays for 12 weeks

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Mike Daly

Summer is here and besides allergies and insect bites, your lawn mower will NOT start. Also, the chain saw you used to trim the trees in April is too dull to cut bread. You could spend a small fortune getting these things repaired. Or, you could repair them yourself. Bring your equipment to this twelve week class and learn how to make the necessary repairs. You will save the labor charge (\$60 - \$75 per hour) and usually get your equipment in working order before the repair shop can.

Snow Blower Maintenance and Repair

Dates: October 7 to December 16, Fridays for 10 weeks *****No class November 25

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Mike Daly

Winter is coming! Is your snow blower hard to start? Does it only throw snow a short distance? If the answer is yes, this is the class for you. Students will take apart and re-assemble new snow blowers in class. Older and newer machines will be covered. This class includes discussions on tune-ups, major engine problems, drive systems and consumable parts (paddles and scraper bars). A popular service manual is included.

Appliance Troubleshooting - Open Lab

Dates: June 15 to August 10, Wednesdays for 8 weeks *****No class June 29

Times: 8:30 am - 11:30 am OR 4:00 pm - 7:00 pm

Instructor: Roland Alvarez

This class is for everyone. Bring in your appliances for this hands on lab. Learn updated knowledge of how to troubleshoot, diagnose, and then repair a variety of major appliances with an understanding of this new technology.

Midwest Career Development Center

1919 Willowcreek Rd., Portage ~ Local 6103 Union Hall

Grant-Seeking Skills

Dates: September 15 to September 29, Thursdays for 3 weeks

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Robert Smith

This 3-week course teaches how to seek funding sources and how to write proposals for government agencies and foundations. It will cover how to help your church or other favorite nonprofit organization pursue funding for its causes. Which grants individuals are eligible for and why funders would want to assist you are also featured including scholarship basics. You will learn:

- How to spell out the benefits of your proposal,
- Which tools can help you locate funders,
- The components of a grant proposal, and
- How to apply and win.

After attending the seminar, you will have access to the instructor for personalized assistance with your grant projects during the next six months.

Grant Writing: The Full Proposal

Dates: October 6 to October 20, Thursdays for 3 weeks

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Robert Smith

To create winning grant proposals, requires writing what is known as the *full proposal*. Learn to submit an in-depth plan to a foundation or corporation: know exactly what is expected and how to land the funding. Explore the process of budgeting a project. Create executive summaries, narratives and all needed components of a full grant proposal whether applying on paper or on-line. For six months following course completion, participants will have rights to consultations with the instructor who is a professional grant writer.

Grant Workshop

Dates: October 27 to December 8, Thursdays for 6 weeks *****No class November 24

Times: 8:00 am - 11:00 am OR 4:00 pm - 7:00 pm

Instructor: Robert Smith

Grant workshop is for anyone who wants to learn by doing. You will coauthor real grant proposals with a veteran grant writer. The record is 14 proposals in five weeks; the most awarded has been \$10,000 in a single request. Together, the specialist and you will select grant makers to approach with a letter of inquiry, phone call and/or full proposal. Before the class is over, grant proposals will be drafted and refined in class and then sent to funding agencies. Your proposal may be submitted electronically. If you have an idea that may be fundable, find out via this workshop. Seats are limited to eight, but spouses may attend.

Midwest Career Development Center

1919 Willowcreek Rd., Portage ~ Local 6103 Union Hall

Money for College

Dates: November 11, Friday for 1 day

Times: 8:00 am - 11:00 am OR 3:30 pm - 6:30 pm

Instructor: Robert Smith

Seeking scholarships for a child or grandchild? This seminar will give you the momentum you need to prepare for success. First the group will hear about the basics of seeking assistance for college, including the types of financial help, the typical deadlines and some search strategies for your state's residents. Second, we will discuss saving for college including the government's opportunities and how to jump smoothly through their hoops. Then we will get online and begin an exploration of what's currently available to you. Finally, you will have access to the instructor's help for six months as you pursue your search for support. An up-to-date handbook and other materials are included in the class. Bring family members, especially students!

Appliance Troubleshooting - Basic & Advanced

Dates: October 18 to December 6, Tuesdays for 8 weeks

Times: 8:30 am - 11:30 am OR 4:00 pm - 7:00 pm

Instructor: Roland Alvarez

This class is for the beginner to advanced student. The new technology in major appliances has changed dramatically. This 8-week hand on course will provide the student and updated knowledge of how to troubleshoot, diagnose, and then repair a variety of major appliances with an understanding of this new technology.

Social Security

Dates: September 8, Thursday for 1 day OR November 29, Tuesday for 1 day

Times: 4:00 pm - 5:30 pm

Instructor: Rob Engel

Do you have questions regarding Social Security? Learn how it's calculated and about terms, such as PIA, and what they mean. Are you worried Social Security may not be there through your entire retirement? We'll examine the Social Security Trustees' report which looks at the next 75 years and what you can expect. Did you know that your Social Security benefits may be taxed? We'll cover when and how much of your benefit will be included in taxable income. Are you considering taking your Social Security benefit while you are still working? We'll cover what happens if you collect while still employed and how much of your benefit you'll be required to pay back into the system if you do. Do you want to get the most out of Social Security? Waiting to claim in order to get the highest monthly benefit may not be the best decision for everyone. Have you heard about changes to the Social Security rules and want to know how they will affect you? We will go over recent changes to Social Security that took place in 2016. Learn how to use the tools available to you to calculate what the best course of action may be depending on your individual situation. No two families are identical and what may be the right choice for someone else may not be the best decision for you. Learn how to navigate the Social Security options available to you so you can make the most of Social Security and have the retirement you deserve.

Fitness For Life

Dates: August 23 to September 27, Tuesdays for 6 weeks

Times: 8:00 am - 9:00 am OR 4:00 pm - 5:00 pm

Instructor: Denny Finnearty

The Fitness and Nutritional training program, Fitness for Life, provided by Universal Fitness and Training, is designed to provide participants with the knowledge to differentiate between healthy and unhealthy lifestyle patterns. Participants will learn to classify food sources and food groups, and to interpret product labels as well as nutritional content and value. Discussions will cover how healthy eating habits maintain a healthy weight, lower risk of disease, keep all body systems functioning properly, and create energy and well-being. We will also explain how beneficial daily physical activity is and its contributions to overall wellness.

1919 Willowcreek Rd., Portage ~ Local 6103 Union Hall

Retire Ready

Dates: August 18 to September 1, Thursdays for 3 weeks

OR: November 8 to November 22, Tuesdays for 3 weeks

Times: 4:00 pm - 5:30 pm

Instructor: Rob Engel

Are you trying to make the best decisions possible regarding your retirement but not sure where to start? Not sure what to do with your 401(k) when you retire? Do you know someone who manages their own money and tells you that you should just invest it yourself? Many realize the stock market is risky and they don't want to worry about running out of money because of a downturn in the market. We'll cover the retirement process including SWPT, PBGC and Social Security and the resources you have available to make the best decisions possible. Have you heard of Roth accounts but aren't sure how they play into your retirement strategy? Have you considered an annuity but aren't sure if it's the best investment for you? Does Medicare leave you confused? Maybe you have experienced a parent go into a nursing home and you're not sure how to protect your children and your savings if you need to go into a nursing home. Learn how to use Roth and Traditional retirement accounts to get the most out of your retirement savings. Learn when to apply for Medicare and how it works with your other coverage in retirement. Decide for yourself if an annuity is an appropriate investment for part of your retirement nest egg after learning what kinds of annuities there are and why they may not be the best investment for everyone. Learn tips regarding the best states to retire based on your sources of retirement income. Hear strategies to protect your hard earned retirement savings in the event you need Medicaid assistance. Finally, learn what retirement options are available to ensure you maximize the benefits you've earned rather than leave money on the table. Are you serious about making sure your money lasts longer than you do? This class will help you make sure you're making the right choices to get the most out of your hard-earned retirement savings.

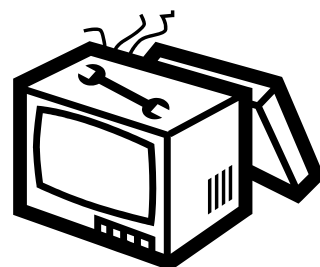

Advanced Consumer Electronics 3

Dates: September 14 to October 25, Wednesdays for 7 weeks

Times: 8:00 am – 11:00 am OR 3:30 pm-6:30 pm

Instructor: Jimmy Morson

Learn advanced electronics by bringing in your own projects, while learning electronic circuits. Learn how to troubleshoot circuit boards and identify electronic components. Must have basic electronic experience. Advanced Electronics is a continuation of Consumer Electronics. This course is advanced in repair and maintenance of LCD and Plasma TV's surround sound systems, sound bars and microwaves.

How Money Works - Financial Workshop

Dates: August 16, Tuesday for 1 day

OR: November 14, Monday for 1 day

Times: 8:00 am - 10:00 am OR 4:00 pm - 6:00 pm

Instructor: Amy Messner

What were you taught about money? When it comes to personal finance, most of us were taught very little. This course will teach basic personal finance concepts and strategies that can be illustrated simply. Topics will include: Basic Budgeting Skills, Debt Elimination, Types of Life Insurance and Investing for Retirement.

Career Development Off-Site Custom Classes Various Locations

FAA Part 141 Sport/Private Pilot Ground School

Dates: October 3 to November 30, Mondays AND Wednesdays for 9 weeks

Times: 6:00 pm - 8:30 pm *****Make-up class sessions available for shift workers*****

Location: Eagle Aircraft, 4001 Murvihill Road, Valparaiso

Instructors: Scott Ferguson and Edward Vargas

Students will be issued a Cessna Pilot Kit to be used in conjunction with the class sessions. Students will have a lab to complete at home before attending the class sessions. The instructor will lead a group discussion using Power Point visuals and class lecture. The goal of this class is to give the students a general overview of aviation technology and terms so that the student will be able to pass the Private Pilot FAA Written Knowledge test. Students will take a practice test at the end of the course and then take the written test at Eagle Aircraft (by appointment). **No prerequisite is required for this course.**

Combined Practical Weather Interpretation and Application Along With Communications

Dates: September 7 to September 28, Wednesdays for 4 weeks

Times: 6:00 pm - 8:30 pm

Location: Eagle Aircraft, 4001 Murvihill Road, Valparaiso

Instructors: Bob Allen

This class is for any student or pilot who is interested in learning how to identify risks in aviation associated with weather and how to avoid them. This class will help students or pilots make decisions about when to fly and in what type of weather. This class is also going to focus on helping a pilot communicate with the Control Tower. The class will use radios and help to allay the fear of talking with the air traffic controller.

Career Development Off-Site Custom Classes Various Locations

FAA Approved Instrument Ground School Course

Dates: October 6 to December 15, Thursdays for 11 weeks

Times: 6:00 pm - 9:00 pm

Location: Eagle Aircraft, 4001 Murvihill Road, Valparaiso

Instructors: Scott Ferguson and Edward Vargas

The Instrument Ground School is for the students who have a Private Pilot License and wish to move to the next step. Instrument Ground School prepares a student for flying in inclement weather so the student isn't forced to land and wait for good weather before completing the trip. The goal of the class is to provide the student with a basic knowledge of instrument flight regulations and procedures. Student will receive operational knowledge of all rules and regulations pertaining to instrument flight. Student will gain knowledge of collecting and interpreting weather data and applying to make pilot in command decisions during flights under IFR conditions. Student will gain a working knowledge of various forms of navigations including GPS, VOR and ADF systems. Student will be prepared to pass an FAA Knowledge Test for an IFR rating.

Arts and Crafts Workshop

Dates: September 9 to October 28, Fridays for 8 weeks

Instructor: Frances Zahariadis

Prerequisite: Learning to Play the Piano/Keyboard - Level 1 or equivalent knowledge

The purpose of this lab is to reacquaint students with the piano/keyboard by giving them the opportunity to ask questions and also address possible challenges they may be facing. The instructor will have extra materials and exercises available to help you focus on piano skills that need strengthening. This class is available to past piano/keyboarding students and is a great opportunity to prepare you for the next level of piano/keyboarding.

Ivy Tech Community College Fall 2016 Course Offerings

HVAC 171 Boilers I

Dates: June 8 to July 29, Wednesdays and Fridays for 8 weeks

Times: 7:30 am to 10:30 am, OR 11:30 am to 2:30 pm, OR 3:30 pm to 6:30 pm

Location: Burns Harbor Career Development, 1275 1/2 McCool Rd., Burns Harbor

Instructor: Joe Thomas

Students learn the basic components of a hydronics radiant heating system; types of boilers, distribution systems, heat emitters and controls. Students study the properties of water and its use as a heat transfer fluid. Through the use of Radiant Design Software programs, students will learn about the unique elements of heat loss calculations when using radiant heating and will design a radiant heating system for a residential/light commercial building.

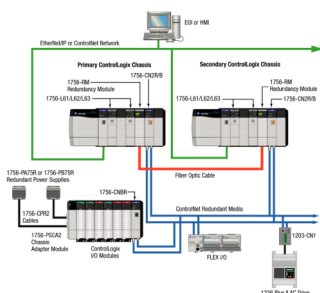

Introduction To Programmable Logic Controllers (PLCs) Distance Education Non-Credit Program

Dates: Dates To Be Announced

Location: At Home On Your Own Computer

This online, instructor-led course with reference text, lab manual and (RSLogix) software focuses in part on the study and application of Allen-Bradley programmable logic hardware (MICROLOGIX 1000-10 POINT-Started –PAK) and Rockwell programming software (RSLogix 500). Students learn PLC hardware components, system configuration, relay ladder logic concepts, binary arithmetic and logic concepts. Rockwell programming software (RSLogix 500) software permits the student the ability to practice and complete homework assignments without the need for expensive hardware and software associated with the classroom.

This course includes your very own PLC Instructional Component Set specifically designed to provide self-study learners a hands-on training experience.
